

Seminar - On Bettering A Step

By Shomit Sirohi

I. Producing a Theory

Improvise a lot.

II. Shifting the Theory to Sirohi

Now just shift this process to a lot of theorizing in this analysis way. I mean just add an analysis.

III. Analysis

Just an analysis – in Freudainne ways. I mean then, just an analysis. I add “analysis” a Freudian walk with a woman is then in analysis, raised to something like in Heidegger – how we are alithea, that disappointing debate on the question of love, then as aleatory as well.
